INDEPENDENT GOVERNOR (VOLUNTARY ROLE)

Sussex Coast College Hastings (SCCH) is a medium-sized, general further education college with an annual budget of c. £20m. The college provides a wide range of education and training solutions for all levels. This includes over 2,000 16-18 year old students, 4,500 adults, 300 apprentices and over 300 higher education students. Our vision is “Inspiring Futures: Changing Lives” and our mission is to provide outstanding education, development and training for the benefit of all our students and stakeholder communities. Ofsted reported that Sussex Coast College Hastings is good in all areas and outstanding in some, with the best 16-18 qualification success rates in East Sussex.

The College is seeking to appoint two new Governors who have senior and strategic level experience in their professional field and want to volunteer their expertise to benefit young people in our area. We would welcome applications from all professionals with one vacancy focused on audit and financial expertise. Applicants may be working, retired or on a career break.

Aspiring Governors should have an interest in the development of the local community and economy and be passionate about student success. The time commitment is approximately 10 meetings per year (daytime) plus occasional training sessions and College events. Your company may have an Employer Supported Volunteer policy in place to further support you as a governor. You benefit from this rewarding voluntary role by:

- Developing skills in a different area to your profession
- Serving the community in a way which utilises your senior level experience
- Gaining an opportunity to develop leadership skills in a personal and professional context
- Having a chance to make a real difference to the lives and employment opportunities for young people.

For more information look at our website <http://www.sussexcoast.ac.uk/about-us/governing-body.html> and contact Sarah Connerty our Clerk to the Corporation email: sconnerty@sussexcoast.ac.uk
